

# UAT Management for Managed Service Providers

Scale your MSP business with multi-tenant UAT management software. Deliver professional user acceptance testing services to multiple clients with isolated environments and enterprise-grade project tracking.

## Why MSPs Choose LogicHive

- ✓ Manage multiple client accounts from one dashboard
- ✓ Complete data isolation between clients
- ✓ Scale from one client to hundreds seamlessly
- ✓ Enterprise security and compliance (SOC 2 Type II)
- ✓ Centralized reporting across all projects
- ✓ Quick-switch between client environments

## Key Features for MSPs

**Multi-Client Dashboard:** Monitor all client UAT projects from a unified interface with real-time health metrics and status indicators.

**Professional Services Automation:** Streamline your managed testing services with built-in workflows for software implementation, system upgrades, ongoing QA, and compliance testing.

**Scalable Architecture:** Purchase additional licenses and projects as your MSP business grows without performance degradation.

## MSP Pricing Tiers

All plans billed monthly. Discounts available for annual pricing.

## MSP Use Cases

**Software Implementation:** Manage UAT for ERP, CRM, and custom software deployments with pre-configured templates and client sign-off tracking.

**System Upgrades:** Coordinate testing for cloud migrations, version upgrades, and platform transitions with before/after comparison workflows.

**Ongoing QA Services:** Deliver managed testing as part of retainer packages with regression testing and continuous quality monitoring.

**Compliance Testing:** Document testing for regulated industries with complete audit trails and compliance reporting.
